IX. **Waivers**

Circle One: Does Not Met **Meets** Exceeds

X. **Budget**

Circle One: **Does Not Met** Meets Exceeds

Using the rubric provided, please elaborate on any feedback you might have on each of the areas below.

- A. Using the funding formula set forth in Section IV.B. of Policy 10000 the proposal provides a budget for the first five years of operation. This budget does not show a reasonable balanced budget in year 3 and thereafter. Without a reasonably balanced budget, the Committee did not feel that the proposal could be moved forward at this time.
- B. The attendance area in this proposal is quite large and is very difficult to estimate a reasonable transportation budget for this large area. However, the initial estimates included in the budget at \$30,000 are likely to be much higher.

XI. **Facility**
