Vision for MMSD Charter Schools

In line with our improvement strategy, we look for our charter schools to be drivers of school-wide innovation for the rest of the school district, to expand academic and enrichment opportunities for students, and to accelerate outcomes, particularly for those students who we have not served well enough.

The MMSD defines [innovation](#) as the process of trying something new or different that has the potential to address an identified need and produce better outcomes for students. Where possible and appropriate, our goal would be to bring proven charter innovation to scale.

It is the policy of the School Board to consider the establishment of charter schools that support the District's mission and belief statements and as provided by law. The Board believes that the creation of charter schools can enhance

the educational opportunities for Madison Metropolitan School District students by providing innovative and distinctive educational programs and by giving parents/students more educational options within the DISTRICT. Only charter schools that are an instrumentality of the DISTRICT will be considered by the BOARD.

The Board further believes that certain values and principles must be integrated into all work involving the conceptualization, development and implementation of a new charter school. These guiding principles are as follows:

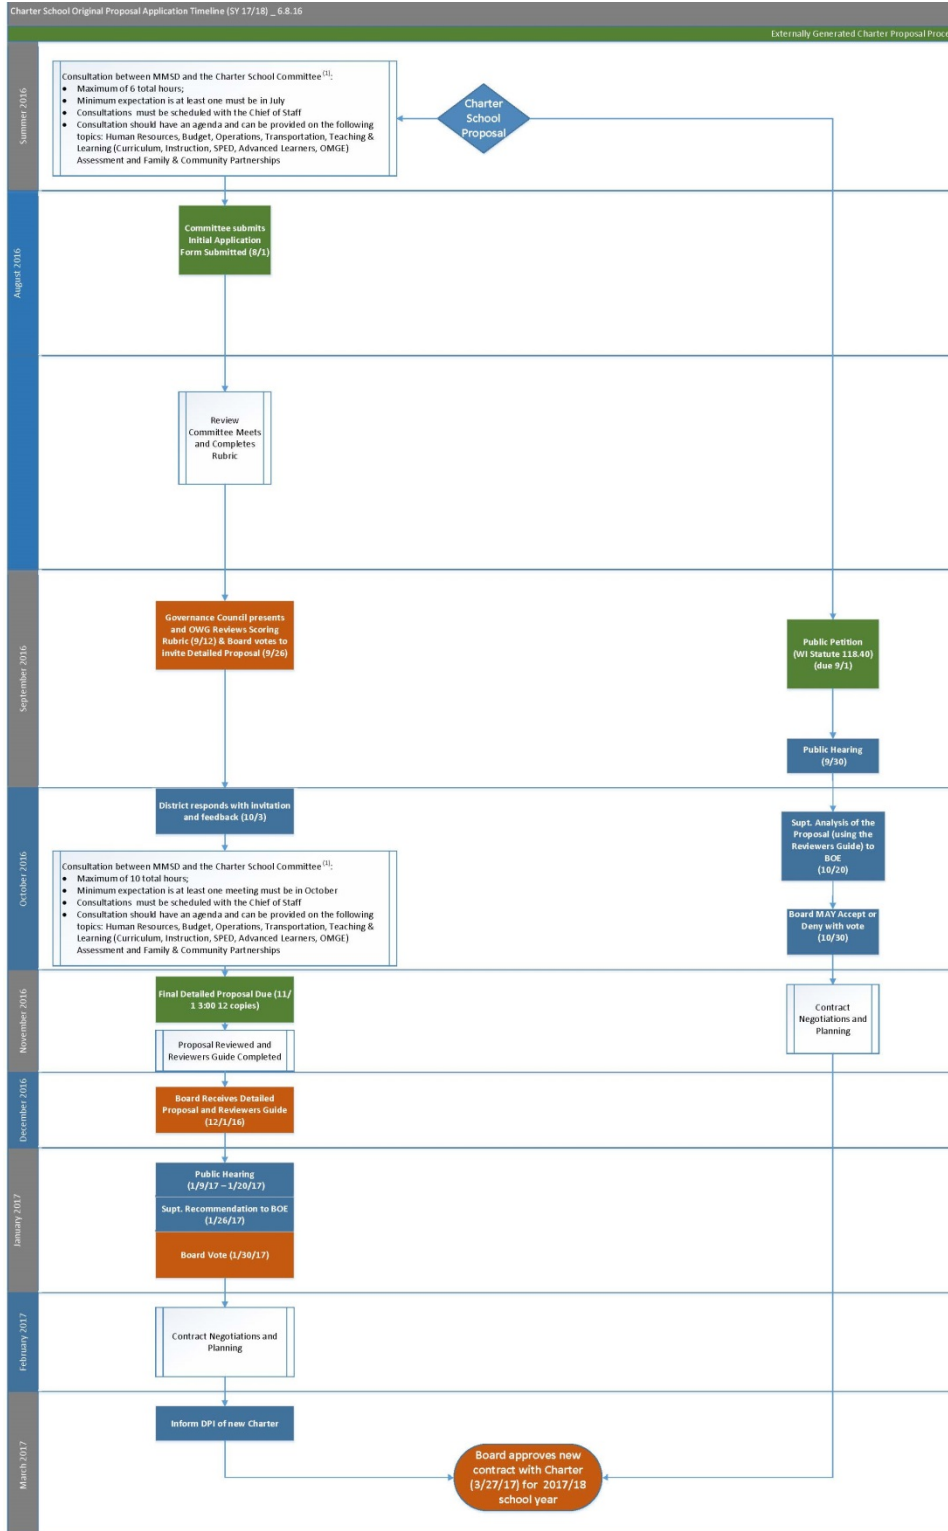

Wisconsin Statute sec. 118.40(7)(a): "...If the school board determines that the charter school is an instrumentality of the school district, the school board shall employ all personnel for the charter school..."

1. All charter schools must meet high standards of student achievement while providing increased educational opportunities, including broadening existing opportunities for struggling populations of students;
2. All charter schools must have an underlying, research-based theory and history of successful practice that is likely to achieve academic success;
3. All charter schools will provide information to parents and students as to the quality of education provided by the charter school and the ongoing academic progress of the individual student;
4. All charter schools will ensure equitable access to all students regardless of gender, race and/or disability;
5. All charter schools must be financially accountable to the DISTRICT and rely on sustainable funding models;
6. All charter schools must ensure the health and safety of all staff and students;
7. All externally-developed charter schools must be governed by a governance board that is registered as a 501(c)(3), tax-exempt charitable organization;
8. All charter schools must have a plan to hire, retain and recruit a highly-qualified, diverse staff;
9. All charter schools must have a clear code of student conduct that includes procedures for positive interventions and social emotional supports.

The District expects that at least one meeting happens in July and one meeting happens in October.

Each charter school is required to participate in a minimum of three (3) consultation meetings prior to the submission of a completed Charter School Original Proposal Application (see Charter School Original Proposal Timeline, page 5).

All consultation meetings should be scheduled through the Chief of Staff's Office. Due to scheduling complexities, the Charter School should contact the Chief of Staff's Office at least two weeks prior to the preferred meeting date. The Charter School Committee ("Committee") is responsible for identifying the departmental representatives (see list below) they wish to be in attendance for each meeting, except for the three required sessions. The MMSD will, minimally, have the appropriate Chief of Schools – Elementary/Secondary, the Chief of Schools - Operations, a representative from Business Services, a representative from Human Resources, and the Assistant Superintendent of Teaching and Learning (the MMSD Charter School Team) present at each of the three required consultation meetings.

Charter School Initial Application and Original Proposal Application Process

Initial Application Form

Charter School Committees must first complete the Initial Application Form (see Appendix) using the available application template. All form sections must be completed. There is a maximum of 500 words allowed for each section, except for the Curriculum and Instructional Design section, for which each subsection – Curriculum and the Instructional Design - can each be 500 words. Applicants are expected to complete each section using prose. Lists and/or bullet points without prose are not an appropriate means of responding.

Exhibits and/or appendices may be attached to the Initial Application Form; however, to the extent possible, data and/or other information should be embedded into the body of the form as supporting materials for any assertions made.

Charter School Committees must submit twelve (12) hard copies of the completed Initial Application Form on or before the due date, August 1st to the Chief of Staff (unless otherwise indicated in the charter contract).

If the MMSD Charter School Team identifies any written sections in the Initial Application Form as “Does Not Meet Expectations,” the Charter School Committee will have the opportunity to update their application to address the concerns before the final September Board of Education vote for a full proposal invitation.

Charter School Original Proposal Application

If the Board of Education extends an invitation to submit a detailed proposal, Charter School Committees must submit the completed Charter School Original Proposal Application using the available application template. All application sections must be completed. There is a maximum of 750 words allowed for each section, except for the Curriculum, Instruction and Assessment section, for which each subsection – Curriculum, Instructional Design and Assessment – can be 750

words. Applicants are expected to complete each section using prose. Lists and/or bullet points without prose are not an appropriate means of responding.

Each section must contain information related to the prior charter contract term as well as a vision for the future. This document provides the Charter School Committee with 'Look For' items in each application section. Responses must, minimally, contain information related to each of the "Look Fors" listed in each section. In addition, this document provides "Set Parameters" for a few of the sections.

A "Set Parameter" means the item(s) listed is a parameter for which the charter school may not propose an alternative approach. Any flexibility proposed must be within the parameter stated. Our intent for this section is not meant to limit innovation; rather, it is to ensure that the District's beliefs and values are honored and that state and federal laws are followed. "Set Parameters" are items that are eligible for clarification within the consulting meetings described in the flowchart on page 5.

Exhibits and/or appendices may be attached to the Charter School Original Proposal Application; however, to the extent possible, data and/or other information should be embedded into the body of the application as supporting materials for any assertions made.

Charter School Committees must submit twelve (12) hard copies of the completed Charter School Original Proposal Application on or before the due date, November 1 to the Chief of Staff.

If the MMSD Charter School Team identifies any written sections in the Application as "Does Not Meet Expectations," the Charter School Committee will have the opportunity to update their application to address the concerns before the final Board of Education vote in January.

Charter School Original Proposal Application Template

FINAL

June 15, 2016

After Board of Education invitation, use this template to fill out your Charter School Original Proposal Application. Review the Applicant's Guide prior to completing this template.

Vision for MMSD Charter Schools

In line with our improvement strategy, we look for our charter schools to be drivers of school-wide innovation for the rest of the school district, to expand academic and enrichment opportunities for students, and to accelerate outcomes, particularly for those students who we have not served well enough.

The MMSD defines [innovation](#) as the process of trying something new or different that has the potential to address an identified need and produce better outcomes for students. Where possible and appropriate, our goal would be to bring proven charter innovation to scale.

It is the policy of the School Board to consider the establishment of charter schools that support the District's mission and belief statements and as provided by law. The Board believes that the creation of charter schools can enhance the educational opportunities for Madison Metropolitan School District students by providing innovative and distinctive educational programs and by giving parents/students more educational options within the District. Only charter schools that are an instrumentality of the District will be considered by the Board.

Wisconsin Statute sec. 118.40(7)(a): "...If the school board determines that the charter school is an instrumentality of the school district, the school board shall employ all personnel for the charter school..."

The Board further believes that certain values and principles must be integrated into all work involving the conceptualization, development and implementation of a new charter school. These guiding principles are as follows:

1. All charter schools must meet high standards of student achievement while providing increased educational opportunities, including broadening existing opportunities for struggling populations of students;
2. All charter schools must have an underlying, research-based theory and history of successful practice that is likely to achieve academic success;
3. All charter schools will provide information to parents and students as to the quality of education provided by the charter school and the ongoing academic progress of the individual student;
4. All charter schools will ensure equitable access to all students regardless of gender, race and/or disability;
5. All charter schools must be financially accountable to the District and rely on sustainable funding models;
6. All charter schools must ensure the health and safety of all staff and students;
7. All externally-developed charter schools must be governed by a governance board that is registered as a 501(c)(3), tax-exempt charitable organization;
8. All charter schools must have a plan to hire, retain and recruit a highly-qualified, diverse staff;
9. All charter schools must have a clear code of student conduct that includes procedures for positive interventions and social emotional supports.

Charter School Original Proposal Application Process

Charter School Committees must complete the Charter School Original Proposal Application using the available application template. All application sections must be completed. There is a maximum of 750 words allowed for each section, except for the Curriculum, Instruction and Assessment section, for which each subsection – Curriculum, Instructional Design and Assessment- can be 750 words. Applicants are expected to complete each section using prose. Lists and/or bullet points without prose are not an appropriate means of responding.

The Charter School [Original Proposal Applicant's Guide](#) provides Charter School Committees with 'Look For' items in each application section. Responses must, minimally, contain information related to each of the "Look Fors" listed in each section.

Exhibits and/or appendices may be attached to the Charter School Original Proposal Application; however, to the extent possible, data and/or other information should be embedded into the body of the application as supporting materials for any assertions made.

Charter School Committees must submit twelve (12) hard copies of the completed Charter School Original Proposal Application on or before the due date, November 1st to the Chief of Staff.

If the MMSD Charter School Team identifies any written sections in the Renewal Application as "Fails to Meet Expectations," the Charter School Team will have the opportunity to update their application to address the concerns before the final Board of Education vote in January.
